Appendix A – List of School Records and Data safely destroyed outside to scope of this retention schedule	25

Introduction

Genesis Education Trust has a responsibility to maintain its records and record keeping systems. When doing this, will take account of the following factors: -

- The most efficient and effective way of storing records and information;
- The confidential nature of the records and information stored;
- The security of the record systems used;
- Privacy and disclosure; and
- Their accessibility.

This policy does not form part of any employee's contract of employment and is not intended to have contractual effect. It does, however, reflect Genesis Education Trust current practice, the requirements of current legislation and best practice and guidance. It may be amended by the school from time to time and any changes notified to employees. The school may also vary any parts of this procedure, including any time limits, as appropriate in any case.

DATA PROTECTION

This policy sets out how long employment-related and pupil data will normally be held by us and when that information will be confidentially destroyed in compliance with the terms of the General Data Protection Regulation (UK GDPR), the Data protection Act 2018 and the Freedom of Information Act 2000.

Data will be stored and processed to allow for the efficient operation of the school. The school's Data Protection Policy outlines its duties and obligations under the UK GDPR.

RETENTION SCHEDULE

Information (hard copy and electronic) will be retained for at least the period specified in the retention schedule. When managing records, the school will adhere to the standard retention times listed within that schedule.

Paper records will be regularly monitored by the school staff.

Electronic records will be regularly monitored by school staff.

The schedule is a relatively lengthy document listing the many types of records used by the school and the applicable retention periods for each record type. The retention periods are based on business needs and legal requirements.

DESTRUCTION OF RECORDS

Where records have been identified for destruction, they should be disposed of in an appropriate way. All information must be reviewed before destruction to determine whether there are special factors that mean destruction should be delayed, such as potential litigation, complaints or grievances.

All paper records containing personal information, or sensitive policy information should be shredded before disposal where possible. All other paper records should be disposed of by an appropriate waste paper merchant. All electronic information will be deleted.

ARCHIVING

Where records have been identified as being worthy of preservation over the longer term, arrangements should be made to transfer the records to the archives.

TRANSFERRING INFORMATION TO OTHER MEDIA

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as digital media or virtual storage centres (such as cloud storage). The lifespan of the media and the ability to migrate data where necessary should always be considered.

RESPONSIBILITY AND MONITORING

The head teacher has primary and day-to-day responsibility for implementing this policy. The Data Protection Officer (DPO), in conjunction with the school, is responsible for monitoring its use and effectiveness and dealing with any queries on its interpretation. The DPO will consider the suitability and adequacy of this policy and report improvements directly to management.

Internal control systems and procedures will be subject to regular audits to provide assurance that they are effective in creating, maintaining and removing records.

Management at all levels are responsible for ensuring those reporting to them are made aware of and understand this policy and are given adequate and regular training on it.

A. Aims

This checklist has been produced based on the "Information Management Toolkit for Schools" (IMTIS) dated 1 February 2016 and developed and published by the Information Record Management Society ("IRMS").

This checklist has been produced in accordance with the guidance produced by the DFE in April 2018 in the "GDPR Toolkit for Schools" and is in accordance with the Data Protection rules and Freedom of Information Act (2000) legislation.

This is a checklist developed to enable School Business Managers, Clerks, SENCO and other School Staff to carry out an efficient annual review and safe destruction of school records and information.

Where there is legal statute behind a requirement this is detailed in the IMTIS document.

B. Safe Destruction of Data

(i) Disposal of records that have reached the end of the minimum retention period allocated

The fifth data protection principle as per the data protection rules (updated for UK GDPR) states that:

"Personal data processed for any purpose or purposes shall not be kept for longer than is necessary for that purpose or those purposes"

In each school, the leadership must ensure that records that are no longer required for business use are reviewed as soon as possible under the criteria set out so that only the appropriate records are destroyed.

The school review will determine whether records are to be selected for permanent preservation, destroyed, digitised to an electronic format or retained by the school for research or litigation purposes.

Whatever decisions are made they need to be documented as part of the records management policy within the school.

(ii) Safe destruction of records

All records containing personal information, or sensitive policy information should be made either unreadable or unreconstructable.

- Paper records should be shredded using a cross-cutting shredder
- CDs / DVDs / Floppy Disks should be cut into pieces

- Audio / Video Tapes and Fax Rolls should be dismantled and shredded
- Hard Disks should be dismantled and sanded

Any other records should be bundled up and disposed of to a waste paper merchant or disposed of in other appropriate ways. Do not put records in with the regular waste or a skip unless there is no other alternative.

There are companies who can provide confidential waste bins and other services which can be purchased to ensure that records are disposed of in an appropriate way.

- a) Where an external provider is used it is recommended that all records must be shredded on-site in the presence of an employee. The organisation must also be able to prove that the records have been destroyed by the company who should provide a Certificate of Destruction. Staff working for the external provider should have been trained in the handling of confidential documents.

The shredding needs to be planned with specific dates and all records should be identified as to the date of destruction.

It is important to understand that if the records are recorded as to be destroyed but have not yet been destroyed and a request for the records has been received they MUST still be provided.

- b) Where records are destroyed internally, the process must ensure that all records are recorded are authorised to be destroyed by a member of the Leadership team and the destruction recorded. Records should be shredded as soon as the record has been documented as being destroyed.

(iii) [Freedom of Information Act 2000 \(FoIA 2000\)](#)

The Freedom of Information Act 2000 requires the school to maintain a list of records which have been destroyed and who authorised their destruction

Members of staff should record at least:

- File reference (or other unique identifier);
- File title (or brief description);
- Number of files and date range
- The name of the authorising officer
- Date action taken

Following this guidance will ensure that the school is compliant with the Data Protection rules and the Freedom of Information Act 2000.

Some authorities choose to keep SEN files for a longer period of time to defend themselves in a "failure to provide a sufficient education" case. There is an element of business risk analysis involved in any decision to keep the records longer than the minimum retention period and this should be documented.	
5.3.2	Statement maintained under section 234 of the Education Act 1990 and any amendments made to the statement	Yes	Date of birth of the pupil + 25 years [This would normally be retained on the pupil file]	SECURE DISPOSAL unless the document is subject to a legal hold
